NUMBER 119

THE HOUSE AND SENATE,

Constitutional Amend- ment to be Voted On

ST. LOUIS GETS \$50,000.

Oleomargarine is Not Strong Enough For The House Committee.

WASHINGTON, May 29.—The house committee on rules today decided to bring in a rule tomorrow for the consideration of trust measures proposed by the house judiciary committee. The discussion will continue Wednesday, Thursday and Friday. There will be a vote on the proposed constitutional amendment at 5 p. m. Thursday and on the proposed bill at 4 p. m. Friday.

The house committee at a meeting today decided to report the Grout bill, taxing oleomargarine, when colored as butter, ten cents per pound. The vote was 10 to 7.

The senate committee on appropriations today decided unanimously to amend the sundry civil appropriation bill. Added as a rider: St. Louis world's fair appropriation, \$50,000, together with \$10,000 to be immediately applicable for expense of commission.

Democratic Caucus.

WASHINGTON, May 29.—The democrats of the house will hold a caucus tonight for the purpose of determining their attitude toward the anti-trust legislation which the republicans propose to adopt this week. Democrats profess to believe the republicans are not sincere in their objections to trusts, and will seem to adopt a program, but will make their own position clear and at the same time develop campaign material. Republicans, on the other hand, think that by proposing the legislation they have put the democrats in a hole and propose to keep them there.

SHARKEY TAKING EXERCISE.

Will Thump a Few Easy Ones For a Starter.

NEW YORK, May 29.—Today Tom Sharkey was matched to meet Yank Kenny in a 25-round contest before the Broadway Athletic club on June 8th. The sailor also agreed to meet Herb Miller, a neophyte in the heavy-weight class, in a six round bout at Philadelphia, June 11. These bouts are to be in the nature of obtaining exercise for the sailor, who meets Kid McCoy June 25th.

HANNA PROPHECIES.

He Talks About the Vice-Presidential Nomination.

WASHINGTON, May 29.—Hanna in a recent conversation insisted that no man has any certainty of receiving the vice-presidential nomination at Philadelphia next month. He thinks the matter will not be settled until the convention takes up the matter in earnest. In other words, the convention will not be a "cut and dried affair."

\$100,000 FIRE.

Destructive Blaze At Fort Worth, Texas.

FORT WORTH, Tex., May 29.—Fire and water this morning destroyed property valued at nearly \$100,000. The losses are the Nash Hardware Co., the Goldstein Dry Goods Co. and Edwards wholesale bakery. The insurance amounts to about \$50,000. The family of W. U. Griswold almost perished before being rescued by firemen. A lamp explosion started the fire.

FIRE UNDER CONTROL.

But the Extent of the Damage to the Calumet Is Unknown.

DETROIT, Mich., May 29.—A local firm of brokers received the following dispatch this morning from its agents at Calumet: "The fire which started Saturday evening in Shaft No. 2 of the Calumet and Hecla mine is now under control. Extent of damage done is not yet known."

I especially invite ladies to call on me who have troubles with their eyes, have headache or nervous troubles. It will cost you nothing to talk about your eyes and it may be of benefit to you.

CLARK IN LUCK.

Gives Doc. Morris \$14,000,000 for Marrying His Daughter.

NEW YORK, May 29.—The charity wards of most of the big hospitals in the city are bright with color today, as a result of the Clark-Morris wedding in St. Thomas' church yesterday. After the festivities had ended, about midnight, the flowers with which the church and the home of the bride's sister had been decorated, and which cost a small fortune, were distributed in the various hospitals. The flowers distributed were 40,000 blossoms, of which 10,000 were Easter lilies, 10,000 roses, 3000 peonies, 2000 orchids, and others in proportion.

Dr. Lewis Rutherford Morris and his bride, formerly Miss Katherine Clark, started on their honeymoon trip about midnight. They had the comforting assurance as they departed that for some time at least the wolf would be kept from the door, as the bride has received from her father, ex-Senator Clark, a wedding gift of \$14,000,000. The fact was made known by intimate friends of the family. This gift was in addition to valuable jewelry, costing thousands of dollars, which the senator bestowed upon his daughter, and which were the most conspicuous of the four hundred and twenty-five articles received by the bride.

EXPECTANT SPORTS

Are Looking for a Great Fight when Ryan and McCoy Meet.

CHICAGO, May 29.—Interest in tonight's McCoy-Ryan mill has increased to a point where a record-breaking attendance is expected. Ryan rested quietly after his work yesterday. He said: "I think I am as strong as any fighter of my weight. I am feeling fine and think I can win. I know as much about McCoy and his style as any one. His talk of whipping me in three rounds is a pleasantry on his part."

McCoy entertained a party of local sporting men at Varnell's road-house, where he is putting the finishing touch on his training. He boxed two rounds with Billy Stiff and followed with a short bout with Jack O'Brien of Philadelphia.

GOOD ECLIPSE.

It Killed a Richmond, Virginia, Coon.

RICHMOND, May 29.—Fright over the eclipse of the sun caused the death of Emma Hill, a negro woman of this city, yesterday. She was stricken with paralysis. The colored population is in a state of great excitement over her death.

Confederate Reunion.

LOUISVILLE, Ky., May 29.—Although the Confederate reunion will not be formally opened until tomorrow, an advance guard of veterans is already here, and each train that comes brings its additions. The most distinguished arrival of yesterday was Gen. Stephen D. Lee of Mississippi, cousin to Gen. Robert E. Lee and a lieutenant-general in the Confederacy. The preparations for the reunion are now practically complete.

Will Let Him Ride.

NEW YORK, May 29.—The life suspension of "Major" Taylor from the rank of professional riders has been removed. At the meeting of the executive committee of American Racing Cyclists Union held yesterday at Valburg it was decided to remit the suspension upon payment of \$500. The fine will be paid.

BOERS WILL DIE HARD.

Burghers are Fortifying the Capital.

A WARNING FROM KRUGER.

He Tells the People of Johannes- burg they Remain at the Peril of Their Lives.

LORENZO MARQUEZ, May 29.—Kruger has issued a proclamation warning Johannesburgers that they remain in the place at the peril of their lives, and that it will probably be necessary to destroy the town and mines.

CAPE TOWN, May 29.—An interview with Kruger is published here in which he is asserted to have declared positively that the Boers will destroy the Rand mines.

LONDON, May 29.—Everybody is now predicting as to the date Lord Roberts will enter Pretoria. Some put it as early as this Saturday, some four weeks from now, June the twentieth is the favorite date as it is ascension day and "Bobs" has a weakness for making big deeds coincide with public dates. Latest dash forward, which last night brought the British army within a day's march of Johannesburg furnishes fresh evidence of the non resistance of the Boers. With exception of some fighting on French's front and to the left, not a shot was fired apparently in the advance. The Boer's running retreat looks very much like demoralization. Dispatches from Pretoria are conflicting. Some say the Boers are preparing to flee at the first sight of Roberts. Others are positive that everybody is working overtime at the capital defenses. The British concentrating at Mafeking are active. They have occupied Zuerst, northeast of Mafeking, and also are reported to be marching on Lydenburg, on the road to Johannesburg. An attack on Pretoria from the direction of Mafeking probably is not regarded as an impossibility by Transvaalers, which may account for their rapid retreat toward their capital. Time is now short for the Boers to put into execution their threat of destroying the Johannesburg mines.

NEW YORK, May 29.—(Bulletin) Since daylight a heavy bombardment of the Boer emplacements has been in progress. The enemy only replies occasionally and a strong stand by the Boers is not expected.

KLIP RIVER, May 28.—(Delayed)—Roberts has announced the annexation of the Orange Free State to the British Empire under the title of "Orange River State."

Methodist Conference Refuses to Censure President McKinley.

CHICAGO, May 29.—The Methodist conference considered an important question today. It refused to censure President McKinley for his act in relation to the anti-canteen law. The report of the committee on temperance contained an attack upon the president and the attorney general of the United States, practically accusing them of defeating the measure. But friends of McKinley rallied to his support and he won out.

ST. LOUIS STRIKERS.

They Virtually Have Won the Fight.

TERMS WILL BE ACCEPTABLE.

The Transit Company Will Send Away All Imported Men.

ST. LOUIS, May 29.—The great strike of Transit company which today completed the third week of its existence, and which has cost several lives, besides inflicting almost incalculable loss upon the business interests of the city, is to be settled Friday of this week, according to a statement which is attributed to Nathaniel Nettles, a stockholder in the Transit company. Nettles declares that at a meeting of the directors it was decided to end the strike Friday by sending away all the imported men and giving the men who did not strike their choice of positions and taking back the union men. He would not say whether the company had decided to recognize the union or not, but declared that the terms would be such as would be acceptable to both sides.

ST. LOUIS, May 29.—The running of transit cars on South Broadway today resulted in two affrays in which eight persons were wounded, two fatally. The first trouble occurred at Broadway and Miller streets, where the trolley car encountered a bonfire built on the track.

THE NEW

Automatic Colt Pistol

We are the First in the whole Southwest to show this pistol, and we should be only too glad to have you inspect and examine this new wonder in the firearms world.

Briefly described, it is a pistol with a magazine attachment holding seven shots, which are capable of being fired off in rapid succession—all automatically. The action of this pistol is automatic, except that the trigger is pulled for firing each shot. The arm can be discharged at the rate of five shots per second, the cartridges being automatically supplied from an attachable magazine inserted in the handle of the pistol.

After the pistol is charged with a filled magazine one opening movement is made by hand, bringing the first cartridge into the chamber. On pulling the trigger the cartridge is fired, the empty shell is extracted, a new cartridge is loaded into the chamber, all these operations taking place automatically without any manipulation of the arm. This automatic operation of the pistol is effected by the recoil of the moving parts, and as a consequence the recoil is so absorbed in being utilized that it has not the usual disturbing effect.

The length of the barrel is 6 inches, length of pistol over all 9 inches, weight of pistol 35 ounces. It is made only in the 38 calibre, with a 6-inch barrel, blued finish, and shoots a rimless, smokeless, metal-patched bullet.
